Summary

Full Stack Web Developer with a passion for learning and growth. My skills include JavaScript, React.js, Node.js, and more with a certificate from Vanderbilt University. My tenure as a Certified Nursing Assistant provided me with experience in teamwork and team building. Most recent projects include critical developer for a ground up React application focusing on ESL for assisting developing students practice the English language. During the project I was able to apply various past skill experience including team focused organization and project deliverable management. I am excited to provide a fresh perspective by leveraging my full skillset.

Technical Skills

HTML, CSS, JavaScript, jQuery, Express.js, React.js, SQL, Node.js, MongoDB

Projects

Weekly Meal Planner GitHub: <https://github.com/KEHeidel/Project-Food> URL: <https://keheidel.github.io/Project-Food/>

- This is a weekly meal planner that allows users to search for recipes or restaurants and then add the selected result to the weekly planner.
- For this project I worked on the JavaScript to pull up and randomize search results, added dietary symbols to the results, and added a button to be able to add the result to the planner. I also worked with the spoonacular API to obtain recipes based on a search function.
- Technologies used were Spoonacular API, Zomato API, Bootstrap, and Animate CSS

LIRI-Node-App GitHub: <https://github.com/KEHeidel/liri-node-app> URL: <https://keheidel.github.io/liri-node-app/>

- This app preforms API calls to Spotify, OMDB, and Bands in Town, to print off information based on a node terminal search.
- For this application I used three different APIs to return information based off a search and used several different npm packages to format the information returned in the terminal
- Technologies used were Spotify API, OMDB API, Bands in Town API, Axios, fs module, Moment, Dotenv, and Node.js

NYT Scrape GitHub: <https://github.com/KEHeidel/NYT-Scrape> URL: <https://nytscraper-kh.herokuapp.com/>

- This app scrapes articles from the New York Times and allows the user to save the article and add notes.
- For this application I used Cheerio to scrape the New York Times for new articles and then saved them to a database using mongoDB and I used Bootbox to create a modal that users could type notes into.
- Technologies used were Node.js, Express, Handlebars, MongoDB, Axios, Cheerio, Bootbox, and Mongoose.

ESL-Experience GitHub: <https://github.com/ESL-Experience/esl-project> URL: <https://esl-final-project.herokuapp.com/>

- This app allows users the opportunity to practice the English language by taking multiple choice quizzes.
- For this project I worked on Passport OAUTH so that users can sign into their account using a Google or Facebook account, I also set up the database using mongoDB and formatted it to get information that was needed, and I worked on the JavaScript for different pages within the app.
- Technologies used were JavaScript, Node.js, React.js, Redux, Passport OAUTH, MongoDB, Express.js, and Axios.

Experience

Nursing Assistant

Blount Memorial Hospital

Assisted residents with daily tasks. Medication administration and verification. Updated residents' charts and follow up information to resident's family and physicians. Worked with Nurse and other nursing assistants to ensure residents safety and needs were being met.

2018-2020

Maryville, TN

Medical Insurance Clerk

UT Medical Center

Followed up with Medicaid insurance agencies on billing discrepancies and underpayments. Submitted formal complaints to state government for conflicts unable to be resolved with the insurance company. Trained new employees on systems. Assisted manager with reports, projects, and procedures.

2012-2018

Knoxville, TN

Deposit Operations

BankEast

Prepared, sorted and distributed transaction and account reports to 11 branches. Obtained scanned records, entered numerical data into databases, and uploaded data into the database. Analyzed and reviewed teller transactions and mitigated discrepancies.

2011-2012

Knoxville, TN

Bank Teller

Wachovia/Wells Fargo

Executed customer transactions, including deposits, withdrawals, checks, loan payments, and the sale of cashier checks, travelers' checks, and money orders. Rapidly and efficiently prepared customer and ATM cash and change orders. Coordinated daily cash reconciliation and balance at a high-volume location. Responsible for accurate consignment and vault audits.

2010-2011

Plant City, FL

Education
